AO685-2.1

ENGINEERING ENROLLMENTS

FALL 1979

PART I

Engineering Enrollments By School And By Curriculum
For All Students Including A Breakdown By Women,
Minorities And Foreign Nationals.

ENGINEERING MANPOWER COMMISSION

OF

AMERICAN ASSOCIATION OF ENGINEERING SOCIETIES

February 1980

AMERICAN ASSOCIATION OF ENGINEERING SOCIETIES

The American Association of Engineering Societies (AAES) is a new national organization with more than 38 member organizations representing nearly one million engineers.

As a central coordinating organization, AAES will focus the resources of the engineering societies on technological issues of national and international importance. The objectives of AAES are to advance the practice of engineering in the public interest.

Directed by a Board of Governors, AAES plans include several councils responsible for such particular areas as public affairs, international affairs, engineering affairs and educational affairs.

MEMBER SOCIETIES

American Society of Civil Engineers
American Institute of Mining, Metallurgical & Petroleum Engineers, Inc.
The American Society of Mechanical Engineers
The Institute of Electrical & Electronics Engineers
American Society for Engineering Education
American Society of Heating, Refrigerating, & Air-Conditioning Engineers, Inc.
American Society of Agricultural Engineers
American Institute of Chemical Engineers
National Council of Engineering Examiners
Society of Manufacturing Engineers
National Society of Professional Engineers
National Institute of Ceramic Engineers
Society of Plastics Engineers, Inc.
American Society for Quality Control
Standards Engineers Society
American Institute of Industrial Engineers, Inc.
Society of Fire Protection Engineers
Society of Women Engineers
American Institute of Plant Engineers
American Association of Cost Engineers

ASSOCIATE SOCIETIES

Air Pollution Control Association
American Society for Metals
The Society of American Military Engineers
Society of Allied Weight Engineers, Inc.
American Congress on Surveying & Mapping
National Association of Corrosion Engineers
Society of Packaging and Handling Engineers
International Material Management Society
American Society of Gas Engineers
American Academy of Environmental Engineers
American Consulting Engineers Council

REGIONAL SOCIETIES

Western Society of Engineers
The Cleveland Engineering Society
Engineering Society of Detroit
Washington Society of Engineers
Engineering Societies of New England, Inc.
International Material Management Society, New Jersey Chapter, Inc.
Danville Engineers Club

THE ENGINEERING MANPOWER COMMISSION

OF AMERICAN ASSOCIATION OF ENGINEERING SOCIETIES

The Engineering Manpower Commission was organized in 1950 as part of Engineers Joint Council to serve as a focus for national technological manpower activity. The Commission is now a part of the Engineering Affairs Council of the American Association of Engineering Societies.

The Commission's program is carried out through the collection, analysis, and publication of significant data on engineering manpower, as well as the development of programs and policies designed to acquaint the public with the importance of engineering to the national welfare.

The Engineering Manpower Commission is charged with the following responsibility:

"To engage in studies and analyses of the supply, demand, and utilization of engineering and technical manpower; to make recommendations, conduct programs, and develop reports concerning these aspects of engineering and technical manpower; and to carry on such other programs in the field of manpower as may be authorized by the Board of Directors of AAES."

EMC OFFICERS AND STAFF

Richard C. Fremon	Chairman
Kenneth C. Brooker	Vice-Chairman
Luke H. Noggle	Chairman, Surveys Committee
Frank W. Stacey	Chairman, Enrollment Survey
Patrick J. Sheridan	Manager, Manpower Activities
Barbara Ann Supple	Assistant
Rosanna Bonadonna	Secretary

ACKNOWLEDGMENTS

The Engineering Manpower Commission is pleased to recognize the invaluable assistance of Richard Hamalak and associates in E. I. duPont de Nemours and Co., for the development of the computer program and the processing of the data for this survey. We appreciate the cooperation of the hundreds of deans and college officials who provided the data on which this report is based. Over-all coordination and preparation of this survey was conducted by Barbara Ann Supple, Administrative Assistant, Engineering Manpower Commission. Donald E. Irwin is consultant to the Engineering Manpower Commission Staff.

INTRODUCTION

Since 1967, the Engineering Manpower Commission has conducted annual studies of engineering and technology enrollments in order to provide timely and accurate educational data. This publication is the twelfth in that series and reflects enrollments as of Fall, 1979.

This report is divided into two parts and presents data for all students enrolled in engineering and technology (which includes engineering technology and industrial technology) programs by curricula and school. Summaries of student enrollment in ECPD accredited programs are shown. Undergraduate students are reported by class and graduate students by degree level. Data is presented for all students combined as well as for Women, Black, Hispanic, American Indian, Asian Pacific and Foreign National students. It should be noted that Part I deals exclusively with engineering enrollments and Part II with technology enrollments.

Part I contains detailed engineering enrollment data by school for all students, Black, Hispanic, American Indian, Asian Pacific and Foreign National students as well as detailed data by curriculum for all students combined.

It also contains detailed data by curriculum for Women, Black, Hispanic, American Indian, Asian Pacific and Foreign National students as well as summary curriculum data, combined for all schools, for each of the above groups of students.

Part II contains detailed technology enrollment data by school for all students, Blacks, Hispanic, American Indian, and Asian Pacific students as well as detailed data by curriculum for all students combined.

It also contains detailed data by curriculum for Women, Black, Hispanic, American Indian and Asian Pacific students as well as summary curriculum data, combined for all schools, for each of the above groups of students.

Although every attempt has been made to eliminate errors in reporting the statistics, some discrepancies may have crept into the tabulations. In several cases inconsistencies in the data submitted have been corrected, or related curricula grouped under a common title so that this report would be manageable in size. Any questions regarding the course content of specific programs should be directed to the reporting institution. Users of this report are advised to read the explanatory material before using the data tables provided herein.

THE 1979 ENGINEERING ENROLLMENT SURVEY

In September 1979 questionnaires were sent to 286 U.S. schools offering engineering programs at the baccalaureate or higher degree level.

ESTIMATED DATA

Information was not received from the following engineering schools at the time of publication. In order to preserve continuity of past summary data, information from previous years' has been substituted for these institutions:

California State University, Fullerton
San Francisco State University
University of Tennessee at Nashville
University of Tennessee at Chattanooga
University of Puerto Rico
Heald Engineering College

In a few cases, schools estimated their minority data. These data are denoted by an asterix (*) in the minority total column.

In instances where schools submitted reports which were only partially complete in that the figures were not fully broken down by year, full or part-time status, degree level or minority allocation, judgment was used to distribute the data as necessary to suit the computer program format.

The following engineering schools did not submit any data and no previous data was available:

West Coast University
Western States College
Washington and Lee University
Northeastern Oklahoma State University

For purposes of recording accreditation status information was obtained from the E.C.P.D. 1978, report. The Engineers' Council for Professional Development is now the Accreditation Board for Engineering and Technology (A.B.E.T.)

Engineering enrollments in the section "By School-All Programs-All Students" previously used the column A/C to designate schools with at least one E.C.P.D. accredited program. This data was unavailable at the time of this publication but will be included in subsequential reports.

ECPD accreditation status for bachelor and masters degree programs is shown in the column designated ACCR.

Data Tables

The following data tables are presented for students enrolled in engineering programs:

(1) Enrollments for all curricula combined for each school arranged by class and degree level for undergraduate and graduate students. Detailed data for all students combined, Women, Black, Hispanic, American Indian, Asian/Pacific and Foreign National Students are reported in Part I.

(2) Enrollments for each curriculum by school arranged by class and degree level for undergraduate and graduate students. Detailed data and a summary for all students combined are reported in Part I. Detailed data and summaries for Women, Black, Hispanic, American Indian, Asian/Pacific and Foreign National students are reported together with additional summary data for these special populations combined.

A summary of enrollments from 1969 to date appears at the beginning of the reported data.

It should be noted that the following features are common to all tables:

(a) The figures for the individual undergraduate years are for FULL-TIME students only. All part-time degree enrollments are combined regardless of the student's academic year standing.

(b) Full-time advanced degree enrollments are reported under the headings of master's engineering or doctor's degrees and as a total for all full-time graduate students. All part-time graduate student enrollments are combined in one column.

Accreditation and Control Identification (AC). Schools have been assigned a two digit code to indicate accreditation and public or private control.

The first digit (1-6) indicates accreditation as follows:

1 At least one engineering curriculum accredited by ECPD (1978 list). Used only in the engineering tables.
2 At least one technology curriculum accredited by ECPD (1978 list). Used only in the technology tables.
4 Accredited by regional accrediting commission (1976-77 list).
5 Accredited by NATTS (1975-76 list).
6 None of the above.

The second digit (1-5) indicates control as follows:

1 Public - state or local government control
2 Public - federal government control
3 Private - nonprofit, nonsectarian
4 Private - religious
5 Private - proprietary

Engineering Curriculum

Curriculum data as reported by each school have been consolidated into the 30 curriculum groups listed here.

AEROSPACE
AGRICULTURAL
ARCHITECTURAL
AUTOMOTIVE
BIOENGINEERING
CERAMIC
CHEMICAL
CIVIL
COMPUTER
CONSTRUCTION
DRAFTING & DESIGN
ELECTRICAL
ELECTROMECHANICAL
ELECTRONIC
ENGINEERING SCIENCE
ENVIRONMENTAL
GENERAL
GEOLOGICAL
INDUSTRIAL
MANUFACTURING
MARINE
MATERIALS
MECHANICAL
METALLURGICAL
MINERAL
MINING
NUCLEAR
OTHER
PETROLEUM
SYSTEMS

The curriculum title used by individual schools may differ from the group heading. The title as reported is shown in the detail reports for each curriculum group.

HISTORICAL SUMMARY
ENGINEERING ENROLLMENTS IN FALL 1979
As Compared With Earlier Years

Engineering Students	Fall 1969	Fall 1970	Fall 1971	Fall 1972	Fall 1973	Fall 1974	Fall 1975	Fall 1976	Fall 1977	Fall 1978	Fall 1979
Freshman Year Full-Time	74,113	71,661	58,566	52,100	51,925	63,444	75,343	82,250	88,780	95,805	103,724
Sophomore Year, Full-Time	52,972	53,419	47,948	42,272	40,519	45,935	55,891	63,003	70,326	72,150	78,594
Junior Year, Full-Time	50,039	49,855	48,543	45,874	41,673	43,007	49,338	56,835	64,721	69,816	74,928
Senior Year, Full-Time	51,738	51,983	51,377	49,895	48,366	44,538	47,070	51,692	60,109	68,260	77,823
Fifth Year, Full-Time	4,668	4,812	4,391	4,586	4,222	4,175	3,737	4,055	5,312	5,206	5,419
TOTAL FULL-TIME UNDERGRADS	233,530	231,730	210,825	194,727	186,705	201,099	231,379	257,835	289,248	311,237	340,488
Part-Time Undergraduates	20,984	18,445	18,222	14,149	15,692	16,689	17,041	19,844	20,634	22,843	25,811
Master's Degree, Full-Time*	20,014	23,216	22,405	22,877	22,588	21,999	26,004	25,516	26,876	26,060	27,923
Doctor's Degree, Full-Time	14,298	14,802	14,100	13,460	11,904	10,628	11,281	10,963	12,359	12,321	13,461
TOTAL FULL-TIME GRADUATE STUDENTS	34,312	38,018	36,505	36,337	34,492	32,627	37,285	36,479	39,235	38,381	41,384
Part-Time Grad Students	32,645	30,802	27,302	24,940	26,114	27,572	27,173	26,842	25,065	24,133	25,768
Number of Schools	269	275	282	283	285	282	291	289	289	276	286
Number of Schools with at least one curricula accredited by E.C.P.D. Future reports will use the new acronym A.B.E.T.											239

*Includes Engineer (professional) degrees.

TECHNOLOGY ENROLLMENTS

FALL 1979

AAES

PART II

Technology Enrollment By School And By Curriculum For All Students Including A Breakdown By Women And Minorities

ENGINEERING MANPOWER COMMISSION

OF

AMERICAN ASSOCIATION OF ENGINEERING SOCIETIES

February 1980

AMERICAN ASSOCIATION OF ENGINEERING SOCIETIES

The American Association of Engineering Societies (AAES) is a new national organization with more than 38 member organizations representing nearly one million engineers.

As a central coordinating organization, AAES will focus the resources of the engineering societies on technological issues of national and international importance. The objectives of AAES are to advance the practice of engineering in the public interest.

Directed by a Board of Governors, AAES plans include several councils responsible for such particular areas as public affairs, international affairs, engineering affairs and educational affairs.

MEMBER SOCIETIES

American Society of Civil Engineers
American Institute of Mining, Metallurgical & Petroleum Engineers, Inc.
The American Society of Mechanical Engineers
The Institute of Electrical & Electronics Engineers
American Society for Engineering Education
American Society of Heating, Refrigerating, & Air-Conditioning Engineers, Inc.
American Society of Agricultural Engineers
American Institute of Chemical Engineers
National Council of Engineering Examiners
Society of Manufacturing Engineers
National Society of Professional Engineers
National Institute of Ceramic Engineers
Society of Plastics Engineers, Inc.
American Society for Quality Control
Standards Engineers Society
American Institute of Industrial Engineers, Inc.
Society of Fire Protection Engineers
Society of Women Engineers
American Institute of Plant Engineers
American Association of Cost Engineers

ASSOCIATE SOCIETIES

Air Pollution Control Association
American Society for Metals
The Society of American Military Engineers
Society of Allied Weight Engineers, Inc.
American Congress on Surveying & Mapping
National Association of Corrosion Engineers
Society of Packaging and Handling Engineers
International Material Management Society
American Society of Gas Engineers
American Academy of Environmental Engineers
American Consulting Engineers Council

REGIONAL SOCIETIES

Western Society of Engineers
The Cleveland Engineering Society
Engineering Society of Detroit
Washington Society of Engineers
Engineering Societies of New England, Inc.
International Material Management Society, New Jersey Chapter, Inc.
Danville Engineers Club

THE ENGINEERING MANPOWER COMMISSION

OF AMERICAN ASSOCIATION OF ENGINEERING SOCIETIES

The Engineering Manpower Commission was organized in 1950 as part of Engineers Joint Council to serve as a focus for national technological manpower activity. The Commission is now a part of the Engineering Affairs Council of the American Association of Engineering Societies.

The Commission's program is carried out through the collection, analysis, and publication of significant data on engineering manpower, as well as the development of programs and policies designed to acquaint the public with the importance of engineering to the national welfare.

The Engineering Manpower Commission is charged with the following responsibility:

"To engage in studies and analyses of the supply, demand, and utilization of engineering and technical manpower; to make recommendations, conduct programs, and develop reports concerning these aspects of engineering and technical manpower; and to carry on such other programs in the field of manpower as may be authorized by the Board of Directors of AAES."

EMC OFFICERS AND STAFF

Richard C. Fremon	Chairman
Kenneth C. Brooker	Vice-Chairman
Luke H. Noggle	Chairman, Surveys Committee
Frank W. Stacey	Chairman, Enrollment Survey
Patrick J. Sheridan	Manager, Manpower Activities
Barbara Ann Supple	Assistant
Rosanna Bonadonna	Secretary

ACKNOWLEDGMENTS

The Engineering Manpower Commission is pleased to recognize the invaluable assistance of Richard Hamalak and associates in E. I. duPont de Nemours and Co., for the development of the computer program and the processing of the data for this survey. We appreciate the cooperation of the hundreds of deans and college officials who provided the data on which this report is based. Over-all coordination and preparation of this survey was conducted by Barbara Ann Supple, Administrative Assistant, Engineering Manpower Commission. Donald E. Irwin is consultant to the Engineering Manpower Commission staff.

Combined Summary 202

INTRODUCTION

Since 1967, the Engineering Manpower Commission has conducted annual studies of engineering and technology enrollments in order to provide timely and accurate educational data. This publication is the twelfth in that series and reflects enrollments as of Fall, 1979.

This report is divided into two parts and presents data for all students enrolled in engineering and technology (which includes engineering technology and industrial technology) programs by curricula and school. Summaries of student enrollment in ECPD accredited programs are shown. Undergraduate students are reported by class and graduate students by degree level. Data is presented for all students combined as well as for Women, Black, Hispanic, American Indian, Asian Pacific and Foreign National students. It should be noted that Part I deals exclusively with engineering enrollments and Part II with technology enrollments.

Part I contains detailed engineering enrollment data by school for all students, Black, Hispanic, American Indian, Asian Pacific and Foreign National students as well as detailed data by curriculum for all students combined.

It also contains detailed data by curriculum for Women, Black, Hispanic, American Indian, Asian Pacific and Foreign National students as well as summary curriculum data, combined for all schools, for each of the above groups of students.

Part II contains detailed technology enrollment data by school for all students, Blacks, Hispanic, American Indian, and Asian Pacific students as well as detailed data by curriculum for all students combined.

It also contains detailed data by curriculum for Women, Black, Hispanic, American Indian and Asian Pacific students as well as summary curriculum data, combined for all schools, for each of the above groups of students.

Although every attempt has been made to eliminate errors in reporting the statistics, some discrepancies may have crept into the tabulations. In several cases inconsistencies in the data submitted have been corrected, or related curricula grouped under a common title so that this report would be manageable in size. Any questions regarding the course content of specific programs should be directed to the reporting institution. Users of this report are advised to read the explanatory material before using the data tables provided herein.

THE 1979 TECHNOLOGY ENROLLMENT SURVEY

This year's report includes data from 350 technical institutions on their enrollments as of Fall 1979. While the statistics reported here represent the majority of students in two and four-year technology programs, they are not the total technology enrollments in the United States. Some schools surveyed did not reply to the survey questionnaire and are not included in the report.

Every effort is made to obtain data from all schools having at least one technology program accredited by the Engineers' Council for Professional Development. For purposes of recording accreditation status the information was obtained from the E.C.P.D. 1978 report. The Engineers' Council for Professional Development accreditation organization is now the Accreditation Board for Engineering and Technology (A.B.E.T.)

ESTIMATED DATA

Information was not received from the following accredited technology schools at the time of publication. In order to present reasonable comparative data to previous reports, information from previous years' has been substituted for these institutions:

Florida A & M University
DeVry Institute of Technology-Chicago
St. Louis Community College
Eastern New Mexico University
Guilford Technical Institute
SUNY A & T Farmingdale
Mercer Community College

In a few cases, schools estimated their minority data. These data are denoted by an asterix (*) in the minority total column.

The following technology schools with at least one program accredited by ABET did not submit any data and no previous data was available.

Atlantic Community College
New York Institute of Technology-Old Westbury Campus
New York Institute of Technology-Metropolitan Campus
Tech Career Institute, Inc.

It is still difficult to distinguish some engineering technology programs from those in industrial technology without going into a detailed evaluation of each program. Schools themselves may be unclear as to the distinction. Therefore, curricula were grouped according to basic technical fields, i.e. chemical, electronics, etc.

Technology programs non-engineering related, i.e. business, nursing, etc. and those of less than two-year's duration were excluded from the report. The data was reported as submitted by the schools; estimates were made only to the extent necessary to put the data into the standard format. In some instances, prorating totals into the appropriate school years or curricula, or reconciling numerical inconsistencies was required.

Most associate degree programs are designed ~~to be terminal in nature~~, but many graduates continue on towards a higher degree. Similarly, many students who complete the first two years of engineering transfer programs never enroll in engineering schools. The 1979 survey did not require the reporting of pre-engineering students by technology schools. Some schools however, did report pre-engineering and we included these reports in the count. This omission resulted in a considerable decrease in the enrollment recorded under the curricula titled "Engineering Science." We expect to return to the reporting of pre-engineering students in the 1980 enrollment survey.

Enrollments in Engineering Technology "by school-All Programs-All Students" has the column A/C to designate schools with at least one E.C.P.D. accredited program. This data was unavailable from the computer program at the time of publication but will be included in subsequential reports.

Enrollments of Engineering Technology "By Program" has a column ACCR which designates ECPD accreditation by utilizing "A" for Associate Degrees and "B" for Bachelor Degrees is up to date as of this publication.

Data Tables

The following data tables are presented for students enrolled in technology programs:

(1) Enrollments for all curricula combined for each school arranged by class and degree level for Associate, Pre-engineering and bachelor programs. Detail data for all students combined, Women, Black, Hispanic, American Indian and Asian Pacific Students are reported.

(2) Enrollments for each curriculum by school arranged by class for Associate, Pre-engineering and Bachelor programs. Detailed data and summaries for Women, Black, Hispanic, American Indian and Asian Pacific students are reported in Part II together with summary data for these special populations combined.

It should be noted that all part-time students at the Associate or Pre-engineering level are reported together and all part-time bachelor degree students reported as totals without regard to class year.

Accreditation and Control Identification (AC). Schools have been assigned a two digit code to indicate accreditation and public or private control.

The first digit (1-6) indicates accreditation as follows:

1 At least one engineering curriculum accredited by ECPD (1978 list). Used only in the engineering tables.
2 At least one technology curriculum accredited by ECPD (1978 list) Used only in the technology tables.
4 Accredited by regional accrediting commission (1976-77 list).
5 Accredited by NATTS (1975-76 list).
6 None of the above.

The second digit (1-5) indicates control as follows:

1 Public - state or local government control
2 Public - federal government control
3 Private - nonprofit, nonsectarian
4 Private - religious
5 Private - proprietary

Technology Curriculum

Data have been consolidated into 27 curriculum groups as shown here:

AEROSPACE
AGRICULTURE
AIR CONDITIONING
ARCHITECTURAL
AUTOMOTIVE
BIOENGINEERING
CHEMICAL
CIVIL
COMPUTER
CONSTRUCTION
DRAFTING & DESIGN
ELECTRICAL
ELECTROMECHANICAL
ELECTRONIC
ENGINEERING SCIENCE
ENVIRONMENTAL
GENERAL
INDUSTRIAL
MANUFACTURING
MARINE
MECHANICAL
METALLURGICAL
MINING
NUCLEAR
OTHER
PETROLEUM
SYSTEMS

Although titles may be the same, the combinations are not the same as for engineering enrollments. The curriculum title used by individual schools may differ from the group heading. The title as reported is shown in the detail reports for each curriculum group.

The column headed ACCR in the reports by curriculum denotes ECPD accreditation at the Associate (A) or Bachelor (B) level.

The difference between industrial engineering technology and industrial technology has been the subject of much confusion in the past. To avoid this difficulty we have used the term "Industrial Technology" only for programs so titled and not otherwise specified as to the technical area. Most programs that would logically fall under one of the industrial engineering functions are grouped under the title of "Manufacturing."

The Engineering Manpower Commission is in the process of reviewing the data for technology curricula as to a more effective and informative format.

SUMMARY OF ENROLLMENTS IN ENGINEERING TECHNOLOGY PROGRAMS ACCREDITED BY ECPD (1)

Engineering Technology Students	Fall 1969	Fall 1970	Fall 1971	Fall 1972	Fall 1973	Fall 1974	Fall 1975	Fall 1976	Fall 1977	Fall 1978	Fall 1979

TOTAL PART-TIME STUDENTS	9,697	13,630	13,165	13,285	12,506	14,180	21,476	19,429	14,079	16,949	15,271
Number of Schools**	52	63	75	84	91	96	112	119	135	133	150

(1) Data up to and including 1978 represents all enrollments in schools with at least one technology curricula accredited by Engineers' Council for Professional Development at the time of the survey. Data for 1979 which will be the new format identifies enrollments in technology programs accredited by E.C.P.D. Future reports will use the new acronym A.B.E.T.

* Includes students in both associate and bachelors' degree programs for these years.

** Schools with at least one curricula accredited by E.C.P.D. The Pennsylvania State University Commonwealth Campuses are counted as one institution.

NOTE: All of the above statistics should be considered approximate because of factors explained in the text.

ERRATA

Corrections to Engineering and Technology Enrollments - Fall 1979
Part I - Engineering

1. The University of Southern California reported 9 American Indians in their Master's Degree Program. The correct total is 2. Totals including these data are effected by this change.

2. The University of Connecticut reported 7 American Indians in their Master's Degree Program. The correct total is zero. Zero Asian Pacific Islanders were reported in their Master's Degree Program. The correct total is 7. Totals including these data are effected by this change.
